Agreement between CAU and NTU

中国·北京

1. Subject of Agreement

Nha Trang University, Vietnam authorizes China Agricultural University to be the Coordinator for the Bilateral Cooperation Project “Energy Saving and Quality Control oriented Monitoring Technologies based on WSN for Aquatic Product Cold Chain”.

Therefore, it has been warranted between the Parties as Follows:

1) The Coordinator will coordinate the management of the entire project and cooperate with the Vietnam part in order to achieve the managerial objectives. Each Party will manage the budget in accordance with the fund from each country,

2) Cooperation with the Vietnam part in order to achieve the objective of the proposed project:

- Exchange new scientific information about WSN technologies, wireless transmission technologies, modeling microbial growth under variable temperatures, energy consumption for maintaining aquatic products quality.
- Improve the decision making with regard to the use of transportation and storage technologies and the design of the whole supply and distribution networks, highlight the potential for the adoption of best practice low-carbon logistic strategies to reduce overall carbon footprints in cold chain.
- Set up a Sino-Vietnam network of experts in order to ensure a long-term (well beyond the time frame of the project) cooperation of scientific and technical information about WSN, parameters monitoring, quality and energy in cold chain.

2. Period of Validity of the agreement

This agreement is for an 2 years period and shall enter into force upon the moment of the positive decision of financing by the authorized body.

3. Addresses of Parties:

3.1 Nha Trang University, No. 2 Nguyen Dinh Chieu street, Nha Trang city, Vietnam

3.2 China Agricultural University, No.17 Qinghua Donglu, Beijing, China
