NHA TRANG UNIVERSITY

THE 2ND QUARTER, 2025

**66TH ANNIVERSARY OF
NHA TRANG UNIVERSITY'S TRADITIONAL DAY
(01/8/1959 - 01/8/2025)**

WWW.NTU.EDU.VN

MISSION

To carry out research, to train highly qualified manpower, and to transfer knowledge in multiple disciplines, focusing on promoting strengths in marine and fisheries science and technology.

VISION

To become a high-ranked university in Vietnam and one of the leading universities in Asia in some disciplines in marine and fisheries science and technology by 2045.

CORE VALUES

Pioneering - Unity - Integration - Dynamism - Responsibility.

EDUCATIONAL PHILOSOPHY

To develop professionalism, creativity and sense of responsibility in an integrated education environment linked to professional practice and the community.

EXTERNAL COOPERATION

- *Innovating Higher Education with the DIVE Project*
- *Toward Education 4.0 and Sustainable Development in the Fisheries Sector*
- *Vietnam - Korea Startup Ecosystem Exchange Program*
- *Training Course on Fisheries Monitoring, Control and Surveillance - Phase 1, Cohort 3, 2025*
- *Integrating NET-works (REVFIN) Project Outcomes into Undergraduate Curriculum*
- *Nha Trang University Promotes International Collaboration with Chinese Partners*

TRAINING

- *Gala and Award Ceremony of the Green Environment Contest 2025*
- *NTU Student Startup Project Wins Third Prize at the 2025 National Student Startup Competition*
- *Final Round of the 2025 NTU English Olympiad for Non-English Majors*
- *Announcement and Certificate Awarding Ceremony for Quality Accreditation of 07 Academic Programs at Nha Trang University*

SCIENCE & TECHNOLOGIES

- *Conference on "Student Scientific Research - Academic Year 2024-2025"*
- *International Workshop and Training on Fish Egg and Larvae Identification*
- *Construction and Launch of Two Composite-Hull Boats*

STUDENT ACTIVITIES

- *Vietnam-U.S. Cultural Exchange Event*

INNOVATING HIGHER EDUCATION WITH THE DIVE PROJECT

On April 10, 2025, Nha Trang University organized a sharing session on digital education activities in higher education institutions. This event was part of the international project “Digital Inclusion in Vietnamese Universities” (DIVE), aiming to introduce and discuss digital education initiatives. The session attracted over 40 lecturers and staff members from various faculties, institutes, departments, and centers of the university.

The event contributed to raising awareness and setting directions for the development of digital education, aiming toward a modern and inclusive learning environment at Nha Trang University.

TOWARD EDUCATION 4.0 AND SUSTAINABLE DEVELOPMENT IN THE FISHERIES SECTOR

In the context of global efforts to promote digital transformation in higher education, Nha Trang University (NTU) and National Taiwan Ocean University (NTOU) have signed a Memorandum of Understanding (MOU), paving the way for a high-quality digital joint training program and applied research in the fields of fisheries and educational technology.

Accordingly, NTU and NTOU will collaborate to develop digital lectures with jointly agreed themes, content, and objectives, which will be continuously updated and improved throughout the cooperation process. These digital lectures will be shared and used by both universities, with plans to expand access to other higher education institutions. The two sides will also carry out course evaluations, promote related projects, and work closely together to ensure the quality and effectiveness of the courses.

In addition, the two universities have exchanged and discussed plans and roadmaps for jointly implementing two research projects. These projects will focus on aquaculture and educational technology, with the aim of practical application and improving training quality. Both sides agreed to develop a detailed roadmap, allocate resources, and set specific milestones to ensure progress and research effectiveness.

VIETNAM - KOREA STARTUP ECOSYSTEM EXCHANGE PROGRAM

On April 25, 2025, Nha Trang University held a signing ceremony for the Memorandum of Understanding (MOU) for the Vietnam - Korea Startup Ecosystem Exchange (VKSEE) Program. The event was organized in collaboration with the Ulsan Center for Creative Economy and Innovation, Ulsan College, the Vietnam Innovation Network in Korea, and the Nha Trang Startup Support Center.

The program aims to support Vietnamese and Korean startups through network building, information and resource sharing, and the organization of workshops and conferences. The parties are committed to facilitating investor connections, fostering globalization, and promoting innovation within the startup ecosystems of both countries.

TRAINING COURSE ON FISHERIES MONITORING, CONTROL AND SURVEILLANCE – PHASE 1, COHORT 3, 2025

On May 5, 2025, Nha Trang University (NTU), in collaboration with the Australian Department of Agriculture, Fisheries and Forestry (DAFF), organized the Monitoring, Control and Surveillance (MCS) Training Course – Phase 1, Cohort 3, 2025. This is the third MCS course hosted by NTU, attracting 40 participants from 10 countries across the Asia-Pacific region, including Southeast Asian nations, Timor-Leste, and Papua New Guinea.

The course provides both theoretical and practical knowledge related to fisheries monitoring, control, and surveillance, aiming to effectively address the issue of Illegal, Unreported and Unregulated (IUU) fishing in Southeast Asia. The training is delivered by a team of experts from the Australian Fisheries Management Authority, the Commonwealth Scientific and Industrial Research Organisation (CSIRO), NTU lecturers, and regional specialists, ensuring in-depth and practice-oriented instruction.

This course not only enhances the capacity of participants but also contributes to promoting international cooperation in sustainable fisheries management and combating IUU fishing in the Asia-Pacific region.

INTEGRATING NET-WORKS (REVFIN) PROJECT OUTCOMES INTO UNDERGRADUATE CURRICULUM

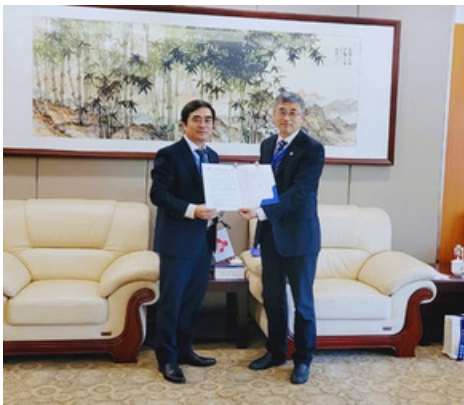

On May 16, 2025, Nha Trang University held a meeting to initiate the integration of outcomes from the project “Preventing, Reducing, and Recycling Fishing Gear Waste Polluting Vietnam’s Marine Areas” (NET-works) into its undergraduate training programs. The meeting focused on discussing how to incorporate research findings, technological solutions, and knowledge generated from the project into formal curricula. This effort aims to enhance students’ awareness, knowledge, and practical skills in marine environmental protection and the sustainable development of the fisheries sector.

Following a selective integration approach tailored to students’ academic level and career orientation, three new courses have been proposed for inclusion in the undergraduate curriculum: Recycling Fishing Nets and Gears, Waste Management, and Environmental Management. In addition, relevant content may be updated and incorporated into existing courses, including those at the postgraduate level.

NHA TRANG UNIVERSITY

PROMOTES INTERNATIONAL COLLABORATION WITH CHINESE PARTNERS

From May 26 to 29, 2025, a delegation from Nha Trang University conducted a productive visit and working sessions with partners in China, marking a significant step forward in the university's strategy to internationalize education and research. At Nanning University and Guangxi University for Nationalities, the two sides agreed to implement joint training programs such as the 3+1 and 2+2 models, faculty and student exchanges, and the organization of international summer camps. A draft Memorandum of Understanding (MoU) with Guangxi University for Nationalities was also developed.

With the Fourth Institute of Oceanography (4IO) in Xiamen, Nha Trang University signed a research collaboration agreement in the fields of aquatic animal pathology and mangrove conservation, aiming at technology transfer and sustainable coastal development. At the Ocean University of China (OUC), both institutions signed a comprehensive cooperation agreement covering education, research, and academic exchange. Nha Trang University also officially became a member of the IAMRI Network, affirming its position in the field of marine science and proposing to host the IAMRI Annual Conference 2026. The visit opened up numerous opportunities for long-term collaboration, contributing to the enhancement of training and research quality, and promoting cultural exchange between Vietnam and China.

GALA AND AWARD CEREMONY OF THE GREEN ENVIRONMENT CONTEST 2025

On May 27, 2025, Nha Trang University successfully organized the Gala and Award Ceremony of the Green Environment Contest 2025, attracting over 200 high school students from the South Central Coast and Central Vietnam regions. With the theme "Promoting Green Mobility and a Just Energy Transition", this year marked the 6th edition of the contest, officially launched in January 2025.

Highlights of the Green Environment Contest 2025: Diverse competition format: a combination of knowledge, communication, and action components, offering students the chance to engage from theory to practice; Large-scale participation: with competing teams from provinces across the South Central Coast and Central Highlands; Multidimensional judging panel: including researchers, lecturers, business representatives, media professionals, and education and community activists; Strong support and engagement: with active involvement from schools, teachers, students, and community organizations in environmental protection and climate change mitigation projects.

NTU STUDENT STARTUP PROJECT WINS THIRD PRIZE AT THE 2025 NATIONAL STUDENT STARTUP COMPETITION

From April 18 to 20, 2025, nearly 800 startup projects from students across the country took part in the 2025 National Student Startup Competition held in Ho Chi Minh City. Among them, 125 outstanding teams advanced to the final round. The project “BioBoots – Eco-friendly Biological Product” by students from Nha Trang University stood out and proudly secured Third Prize at the national level, affirming the talent and determination of NTU’s young innovators in a highly competitive startup arena. With a creative and environmentally friendly concept, the team successfully passed through multiple intense rounds to achieve this remarkable accomplishment.

FINAL ROUND OF THE 2025 NTU ENGLISH OLYMPIAD FOR NON-ENGLISH MAJORS

On May 19, 2025, Nha Trang University organized the final round of the 2025 NTU English Olympiad for Non-English Majors under the theme "Green Life, Future Thrives."

The competition aimed to raise environmental awareness and promote a green lifestyle among university students. More than just an academic playground, the event provided a valuable platform for students to improve their English skills, critical thinking, creativity, presentation, and teamwork. It also created opportunities for exchange, learning, and spreading the message of sustainable and eco-friendly living. Through this, the contest helped inspire a sense of responsibility among the younger generation in building a sustainable future.

ANNOUNCEMENT AND CERTIFICATE AWARDING CEREMONY FOR QUALITY ACCREDITATION OF 07 ACADEMIC PROGRAMS AT NHA TRANG UNIVERSITY

On July 1, 2025, Nha Trang University solemnly held the Announcement and Certificate Awarding Ceremony for the official recognition and accreditation of seven academic programs: Law, Development Economics, Marketing, Management Information Systems, Thermal Engineering, Mechatronic Engineering, and Marine Science. As of now, 25 out of the university's 30 academic programs have been accredited.

It is expected that all remaining programs will complete the accreditation process within 2025, ensuring the university's commitment to comprehensive educational quality.

CONFERENCE ON “STUDENT SCIENTIFIC RESEARCH – ACADEMIC YEAR 2024-2025”

On May 21, 2025, Nha Trang University officially opened the Conference on Student Scientific Research for the Academic Year 2024-2025, attracting over 160 students with 62 diverse research topics across the fields of engineering and technology, agricultural sciences, and social sciences. The event served as an academic forum to inspire students’ passion, creativity, and research capabilities.

The conference reaffirmed the university’s strong commitment to promoting scientific research among students and nurturing young talents. The presented projects demonstrated high applicability, addressing real-world issues and contributing to socio-economic development and the enhancement of human resource training quality — further affirming the university’s academic standing.

INTERNATIONAL WORKSHOP AND TRAINING ON FISH EGG AND LARVAE IDENTIFICATION

On June 15, 2025, the Institute of Biotechnology and Environment (IBE) of Nha Trang University inaugurated the International Workshop and Training on Ichthyoplankton Identification. The workshop is part of the project "VINIF.2022.DA00021" focusing on the application of DNA metabarcoding in fisheries resource research.

The event attracted scientists, students, and leading experts from both Vietnam and abroad, creating opportunities for research collaboration in the field of marine biology.

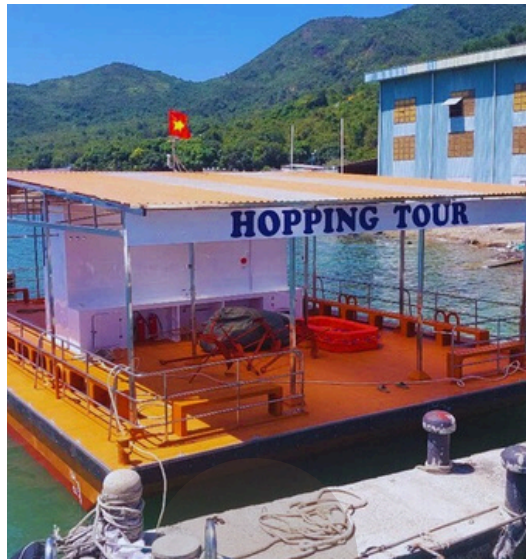

CONSTRUCTION AND LAUNCH OF TWO COMPOSITE-HULL BOATS

In the second quarter of 2025, the Institute for Ship Research and Manufacturing continued to deliver two composite-hull vessels for commercial purposes: Long Phu 26 and Poong Ton Hopping Tour.

Long Phu 26 was designed and built for Long Phu Tourism Joint Stock Company, based in Ninh Hoa. The vessel is 16.40 meters long, 3.12 meters wide, and 0.84 meters high, with a capacity of 51 passengers (including 3 crew members).

Poong Ton Hopping Tour is a non-motorized floating platform designed specifically for scuba diving activities. It was manufactured upon request for a private client in Khanh Hoa. This vessel has no engine, is used for transporting passengers, and can carry up to 48 guests. Its dimensions are 14 meters in length, 8.5 meters in width, and 1 meter in height.

VIETNAM-U.S.

CULTURAL EXCHANGE EVENT

On June 12, 2025, Nha Trang University organized a cultural exchange event with a delegation from the Oregon National Guard, United States. The event not only served as a bridge between the two cultures but also highlighted the spirit of international cooperation in the fields of education and security.

The U.S. delegation included 8 representatives from the Oregon National Guard, joined by over 40 participants from various Vietnamese agencies. The program featured vibrant activities, including traditional Vietnamese folk games such as bamboo dancing and flag snatching, led by students from the Faculty of Foreign Languages and the university's Youth Union. Members of the Oregon National Guard eagerly took part, creating joyful and memorable moments for everyone involved.

UPCOMING EVENTS

International Scientific Conference on
“Innovation and Sustainable Ocean
Development – MSDI 2025”,
from July 25 to 27, 2025

I Conference on “The Impact of
Economic Fluctuations and Financial
Policies on Accounting and Auditing”,
on July 27, 2025

66th Anniversary of
Nha Trang University's Traditional Day
